Portfolio

Profile

Information Technology undergraduate focused on frontend development with hands-on experience in React.js, JavaScript, TypeScript, REST APIs, responsive UI development, and client-side state management. Built and deployed web applications featuring authentication, API integration, reusable components, and database-backed functionality.

Experience

- BS Digital Technology** June 2026 – July 2026
Vocational Trainee Durg
 - Completed vocational training focused on full-stack web development and modern application development practices.
 - Built a movie discovery application using React, Redux Toolkit, Tailwind CSS, Axios, and external movie APIs.
 - Worked with authentication, database storage, API integration, reusable components, and responsive frontend development.

Projects

NEXA Movie App – Personalized Movie and TV Discovery Platform [GitHub Link](#)

React.js, JavaScript, Vite, Tailwind CSS, Redux Toolkit, React Router, Axios, Supabase, TMDB API

- Developed a responsive movie and TV discovery platform using React.js, Redux Toolkit, React Router, and TMDB REST APIs, implementing search, trending content, detailed views, trailers, and watchlist features.
- Built reusable React components and responsive navigation to support consistent user experiences across different screen sizes.
- Integrated Supabase authentication, PostgreSQL, and Row Level Security to implement protected, user-specific watchlist and favorites features.

Privacy-First Client-Side PDF Processor [GitHub Link](#)

Next.js, React, TypeScript, Tailwind CSS, shadcn/ui, Zustand

- Developed a browser-based PDF processing application using Next.js, React, TypeScript, and Tailwind CSS with client-side document processing.
- Implemented reusable UI components and multiple PDF workflows including merging, splitting, compression, rotation, extraction, and watermarking.
- Structured client-side state management using Zustand to coordinate document-processing workflows and application settings.

JobTrack – Job Application Tracker Chrome Extension [GitHub Link](#)

React, TypeScript, Chrome Extension APIs, Manifest V3, Chrome Storage API

- Developed a React and TypeScript Chrome Extension using Manifest V3 to help users organize and track job applications.
- Implemented CRUD operations, search, status filtering, application dates, and notes using the Chrome Storage API.
- Built a responsive dashboard with application statistics, interview progress tracking, and CSV export functionality.

Skills

Languages: Java, JavaScript, C++, Python

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Redux Toolkit

Backend: Java, Spring Boot, REST APIs

Databases: MySQL, PostgreSQL, Supabase

Developer Tools: Git, GitHub, VS Code, Postman, IntelliJ IDEA, Vercel

APIs & Integration: REST APIs, Axios, TMDB API

Education

- Bhilai Institute of Technology, Durg** 2024 – 2027
Bachelor of Technology in Information Technology CGPA: 7.67
- Kirodimal Government Polytechnic, Raigarh** 2024
Diploma in Computer Science and Engineering CGPA: 7.6

Achievements & Certifications

- Python 3.4.3 Training** – EduPyramids, SINE, IIT Bombay, 2025.
- Rajya Puraskar Award** – The Bharat Scouts & Guides, Kendriya Vidyalaya, Raigarh, 2019.
